Assessments

Free products

Rebates

Loans

Assessments

Types of assessments:

- Residential
- Multi-family
- Commercial

Home assessment

During the assessment, the Energy Advisor will walk through your home to assess your energy use and you'll receive:

- A report detailing your home's energy use and opportunities for saving energy and money
- Free energy-saving products like pipe insulation and a programmable thermostat
- Recommendations for rebates that may be available for you

Virtual or in-home assessment options are available—you can schedule your appointment at [nicorgas.com/schedule](https://www.nicorgas.com/schedule)

*We are currently following CDC guidelines and scheduling out assessments

Do-it-yourself (DIY) assessments
